

If us the consumers are paying for a utillty service either wired phone/wireless phone service is it assumed that we'd like to pay monies for and waste our time answering Spam calls??? WHAT ARE YOU PEOPLE SITTING ON? WAKE UP! We are paying for the services!

If we recieved the phone services free i could expect the spam calls. I propose that as PAYING CONSUMERS that WE are automaticlly signed up on the NO CALL LIST unless.....a individual request to be put on the "call me with SPAM" list!!!!!!! Wake up people!!! enough is enough. Wisconsin IS on the right path, and this should be encouraged throughout the states. NOT removing a positive law already in place.

Thank You signed,

A tired of being interrupted PAYING comnsumer.
